

# Safety Partitions

*Prepare for the future and offer solutions to help fight the coronavirus and keep your community safe.*

## Split offices - walled spaces

Implement safer office spaces by installing separation walls to respect social distancing in your company.

## Online meetings & webinars

Webinars are a great way to get in touch with existing and new customers. Let your webinar emphasize the professionalism of your company. Why not invest in a background structure that has the same look & feel and mission as your company?

## Separation walls

Where the social distancing rules cannot be followed, the hygienic modular walls offer the perfect solution!

## Gyms

This design gives gyms a boost! Our modular frames can create perfectly enclosed spaces to allow their members to workout in peace, but above all corona proof.

## Restaurant dividers

Our aluminium frames can be used as split walls in restaurants. This simple temporary structure is easily assembled and can easily be moved around or adjusted in size. It is also quick and easy to finish, completely within the style and decor of a restaurant.
